## **Partners Program**

Community Foundation Partners have become the resource for a portion of our Community Granting Program.

#### Who is a Partner:

Partners are those individuals and businesses that make an annual contribution to the Community Foundation to support our Community Granting Program.

### What are Community Grants:

At the Community Foundation we focus on being an effective catalyst for a thriving community. This grant making program supports funding for needs that arise in the community. These grants strengthen the capability of our local non-profits by addressing a broad range of local needs.

#### How it works:

- Non-profits in or serving our local area are allowed to submit grant proposals.
- We have two granting cycles; spring and fall.
- Awards are determined on a competitive process based upon proposals submitted by non-profits.
- Grant applications are reviewed by the Foundation's volunteer Distribution Committee and forwarded to the Board of Trustees for final approval.

### How to participate:

• A Partner's Fund gift of \$150 or more for an individual, or \$300 or more for a couple or business will place you as a member of the Community Foundation Partners for the current year. You can go to

our website at commfoun.com and click on '**Donate'** and select '**Partners Fund'** to contribute. Your gift will make next year's grants possible.

## 2023 Spring Community Grants
